

# **ABOUT US**

Highrange Rubber & Coir Products Pvt. Ltd s a premium manufacturer of fine quality mats and flooring made from quality synthetic and Indian pubber.

Mr K J Louis, a visionary leader, laid the foundation for Highrange Ruibber & Coir Products Pvt. Ltd. in Kottayam, Kerala. A multi-burpose ruibber manufacturing unit, Highrange was founded in 1978, and in 1990 this familiy-run enterprise diversified tts offerings to begin producing ruibber mats and flooring. Over the past three decades, we have leveraged our production excellence and strategic growth measures to reach markets and service both businesses and households across the globe. In recognition of our superior product quality and excellent service, we were awarded the National Award for Outstanding Export Performance in the MSME category (for ruibber molded products) for the vear 2015-16.

#### CAR MATE

These mats are designed to fit any car floor like a charm. And even better, they are made to last a lifetime. Put them in your car and forget about changing them!

# TRUCK MATE

Stay safe on the highway with these rubber flaps that protect your truck's engine and tires from mud and water. Made from durable rubber, these flaps are both long-lasting and easy to maintain.

Automobile

### **ROAD** MATE

These truck and car trunk mats offer the dual benefit of reducing your cleaning time and helping you keep your vehicle's boot in mint condition. They come in a universal size and last for years — with next-to-zero maintenance.

#### **BOOTMAX**

After a long day outdoors, your shoes can be placed on this well-designed tray. It can hold three pairs of shoes and catch the dust, mud, and water that falls off them.

#### **TROOPER**

This one-dip cleaning machine can hold a few liters of liquid detergent to soak your shoes in. Get a spotless look by scrubbing your dirty boots on its disinfectant bristles!

98\*81\*4.69cm, 80\*60\*3.0cm, 40\*60\*3.0cm

### **EQUINE** LOCK

Whether you own agile racehorses or hard-working farm horses, these durable mats are suited to all kinds of heavy activity. Their easy-to-install interlocking mats are soft and long-lasting — keeping your horses safe, always.

#### **EQUINE PLUS**

Lay down these slip-resistant mats in your stable's loose box and lying area to create a perfectly safe resting space for your livestock. There's no need to worry about expansion or wear and tear — rest assured this is an investment for a lifetime.

# **EQUINE** GUARD

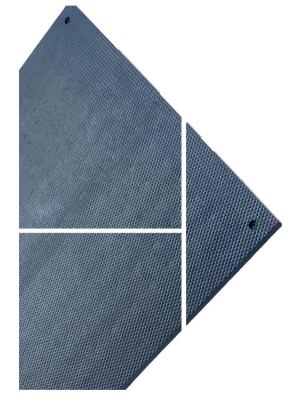

Equine experts can depend on the high quality of these stable panels to protect both horses and their riders from injury. Additionally, these lightweight mats can easily be fixed on existing wooden panels.

Equine

# SHELTER MATE

Made from high-quality natural rubber, these cubicle mats are highly tensile and provide considerable comfort to cows. Their hammer-top surfaces are easy to clean and are the preferred choice for neat and hygienic barns.

# SHELTER LOCK

These durable mats have a slope-edged rear and provide extra comfort to cows. Additionally, they increase your cattle's productivity — contributing to an increase in yield!

Dairy

#### **SHELTER** STUD

A long-lasting, studded mat such as this can go a long way in providing comfort to your cattle. Its anti-slip, hammer-top surface — made from natural rubber — keeps them safe and out of harm's way.

# **SHELTER** LOCK PRO

Apart from its easy-to-install nature and long-lasting built to be build, these mats also have studs at the bottom for additional comfort.

Dairy

#### **SHELTER** SOFT

We have engineered a latex, foam-filled mattress to provide maximum comfort to your cows. With a slope-edged rear, this mattress mat supports cows in their natural resting position.

Dairy

#### SHELTER MAX

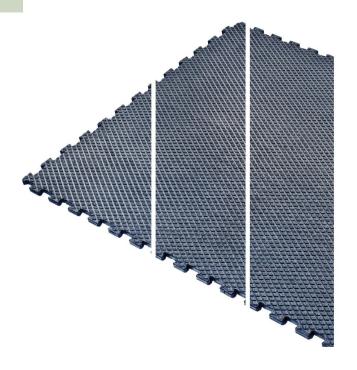

The diamond design, recessed holes, and stainless steel fixings of these holding area mats contribute to their sturdiness and firm grip. This makes them most suitable for hazard-prone locations in your barns.

Dairy

# SHELTER QUEEN

The milking area needs to be both comfortable for your cattle and easy to clean — two essential requirements that are fulfilled by these high-quality mats. You also get the advantage of using both sides that come with a coin pattern.

#### SHELTER WALK

Keep passages safe and comfortable for your cattle with these seamless, high-grip mats. The continuous stretch of high-quality natural rubber promises an accident-free walking area that keeps injuries at bay.

122\*182\*2.0cm

Dairy

### **DAIRY MAX**

Our cow mat roll will meet all your cattle care needs — from support to comfort. This continuous roll can be cut to the required length so that it fits the cowpen perfectly.

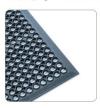

120cm width\*17mm thickness, 180cm width\*17mm thickness Length: 30m or cut to any length

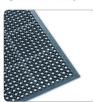

#### **WORK TOP PRO**

Nothing sticks to this grease-resistant topdeck mat, which has been made lightweight to ease the cleaning process. Further, its anti-fatigue features cushion your workers' feet, helping them stand for long durations in a day.

#### **WORK** LINK PRO

Create a safe space for both your kitchen staff and their tools with this protective mat that can be installed in minutes. It gives you a safe and dry environment to work comfortably in.

Restaurant / Kitchen

# **GUARD** TECH (Oil Resistant Mat)

This specially designed mat resists swelling when exposed to oil or any other fluids, making it ideal for restaurant floors that can't afford slippage of any kind.

90°150cm, also available in custom size

Industrial
(Available in 50%, 80%, and 100% in NBR for industrial applications.)

Available in other designs

# **WORK EASY**

On long days, the bubble top surface of this mat will keep you staff comfortable. This special synthetic blend can be used in all kinds of production facilities.

#### **WORK SURE**

Each of these mats are specially designed to provide a seamless surface that prevents tripping. Its diamond modular top is engineered to give you an excellent grip as you stand.

# SHIELD TECH (Weld Flex Resistant)

When welding sparks fly, this mat will keep you safe. And its anti-fatigue properties will make long hours much more comfortable for you and your people.

# FIRE SHIELD TECH (Fire Retardant)

Keep your space safe with this fire-retardant mat that will also guard you against chlorinated gaseous emmissions. Meant to last a lifetime. Tested at OTI Austria BFL-S1

Industrial
(Also available in ring, top deck, and link mat patterns)

# **ELECTRA** TECH (ESD Mat)

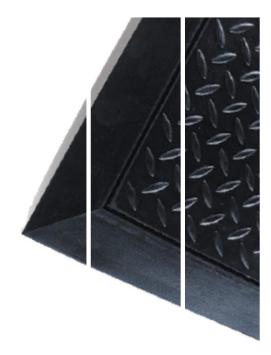

Fortify your workplace with this resilient mat that will drain excess electrostatic charge to the ground. Its electrical resistivity range of 1\*10<sup>3</sup>\*1\*10<sup>5</sup> will keep you safe from sudden dangerous shock.

# **WORK INSULAR**

Cover all bases to prevent fatal incidents with these moisture-absorbing insulation mats. Their high voltage breakdown strength - of up to 20,000 V - is an essential requirement for any hazardous environment.

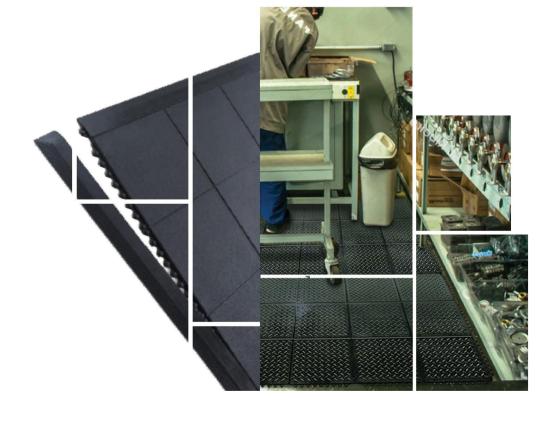

Industrial

# **WORK** HAWK

If the safety of your people is your primary concern, then these insulating rubber mats are a necessary addition to your workplace. Their anti-slip surfaces secure the workplace and prevent electrical shocks.
